ECO SOLVENT

ATTRIBUTES :

- Exceptional print quality
- Versatile applications
- Indoor/outdoor use
- High volume
- Low ink consumption
- Solvent ink is preferred for vehicle wraps
- XY Slitter (optional)
- Eco solvent inks available

APPLICATIONS :

- Vehicle wraps
- Stickers & labels
- Banner
- Window graphics
- POP
- Posters & signage

POSTER / SIGNAGE / LABELS
JV100 / JV200 / CJV200 Series

- 8-Color
- Single head

SIGN GRAPHICS
JV330 Series

- 4 to 8-Color
- Dual head
- XY slitter (optional)
- 3 roll media changer
- Eco solvent inks available
- 3-year 3M™ MCS™ warranty

SIGNAGE / LABELS / WRAPS
CJV330

- 4 to 8-Color
- Dual head
- Print + cut
- XY slitter (optional)
- 3 roll media changer
- Eco solvent inks available
- 3-year 3M™ MCS™ warranty

AQUEOUS

- Attributes :
- Indoor or limited outdoor use
 - 60" or less
 - Quiet
 - No odor
 - Suitable for use in offices, schools, hospitals, etc.
 - Energy efficient
 - Instant dry (on treated media)
 - Very high print quality
 - Slow print speed
 - Easy& infrequent maintenance
 - Inexpensive hardware & printer
 - Higher price inks
 - Scanner option on technical models

- Applications :
- Photography & fine art prints
 - Indoor posters & signage
 - Technical renderings

FINE PHOTOGRAPHY & FINE ART
ImagePROGRAF PRO Series

- 11-Color
- Photo Black + Clear
- Chroma optimizer
- High-scratch resistance inks
- Improved lightfastness

SHAKER OVENS

ATTRIBUTES :

- Efficient powder shaking & curing
- High-speed production & workflow optimization
- User-friendly operation
- Consistent performance
- Versatile application support
- Energy effective
- Cost effective

APPLICATIONS :

- Apparel customization
- Promotional products & accessories
- Custom t-shirts & workwear
- Home textiles & decor
- High-volume DTF printing needs

Roland

RDTF800 Shaker

- DTF shaker oven optimized for Roland TY-300
- Automated powder shaking system
- Advanced curing technology

SHAKER & DRYER

DTF Station Miro Series

- Available in 3 widths
- Compact
- Built-In Air Purification System
- Curved Heating Platen

DYE SUB

ATTRIBUTES :

- Professional grade
- Photo quality graphics
- Short to long runs

APPLICATIONS :

- Soft signage
- Fashion & sport textiles & apparel
- Interior fabric

TS200-1600

- 4 or 8-color configuration including Orange, Violet, Fluorescent Yellow + Fluorescent Pink
- Single high-density printhead
- 330 engine
- Variable dot control

TS330-Series

- 4 or 8 color configurations including Fluorescent Yellow + Fluorescent Pink
- Single-head
- Weaving dot technology

Mimaki TS55-1800

- 4-8 color configurations including Fluorescent Yellow + Fluorescent Pink
- Mini jumbo roll (supports paper length up to 8,202')
- 22lb ink supply
- Oeko-Tex® Eco Passport certified

DYE SUB

ATTRIBUTES :

- Compact design
- Vibrant color reproduction
- Easy to use

VERSIFLEX SYSTEM

APPLICATIONS :

- Print on any fabric (cotton, denim, etc) as well as a variety of hard surfaces (wood, ceramic, aluminum bottles...) & traditional dye sub products including polyester
- Self-weeding
- Instant press & peel
- Apparel
- Home decor
- Promotion materials

SUBLIJET SYSTEM

APPLICATIONS :

- Print on polyester & poly-coated blanks
- Print on light & bright colors
- Scratch & UV-resistant
- Dishwasher safe
- Apparel
- Home decor
- Promotion materials

SAWGRASS™

DESKTOP

UV GEL

- ATTRIBUTES :
- Indoor / outdoor use
 - High speed, high quality, high volume
 - Matte & gloss finish
 - Double-sided printing
 - Dual roll drawer
 - Low ink consumption (up to a reduction of 40% compared to Latex / Eco Solvent)
 - Lower running cost
 - Jumbo roll capabilities
 - Instant dry & ultra-durable
 - Low-heat, energy-efficient led (enables printing on heat-sensitive materials)

- APPLICATIONS :
- Wall & floor decor
 - Short or long-term POP
 - Banners
 - Backlit
 - Vehicle graphics
 - Soft signage
 - Canvas prints
 - Perforated film

- Colorado M Series
- 4-Color + White (optional)
 - FLXfinish+ (mix Matte & Gloss finishes on one pass)
 - Modular & field upgradable
 - Pinnacle Product award

- Colorado XL Series
- 11´ (3.3 meter) printer
 - Hybrid capabilities
 - New print head technology

XY Matic Trim Plus Wallpaper
A wallpaper cutter, specifically for:

- Paper (*laminated or encapsulated*)
- Canvas & Polyester (*with lining*)
- Reflective Material
- PVC Banners
- Vinyl & Vinyl Sticker
- Back-lit and Front Display
- Magnetic Rubber
- Polycarbonate Film

Alignment system precisely trims the material for perfect installation without overlap.

MODELS	
CUT WIDTH	MAX THICKNESS (X/Y)
165cm / 64"	1.2mm / 1mm
210cm / 82"	1.2mm / 1mm

CONTOUR CUTTER

- ATTRIBUTES :
- Fast cutting on a wide range of media
 - Windows & Mac compatible
 - Works for hobbyists or production businesses
 - Available in 29" and 61"
- APPLICATIONS :
- Stickers
 - Labels
 - Vehicle wraps
 - Signage production
 - Apparel decoration
 - Packaging prototypes

CG-AR Series

- 550g cut pressure – highest in its class

CG-FXII Plus Series

- Automatic continuous cutting

FLATBED CUTTER

ATTRIBUTES :

- High speed digital cutting solutions
- All production levels available
- All footprint sizes available

APPLICATIONS :

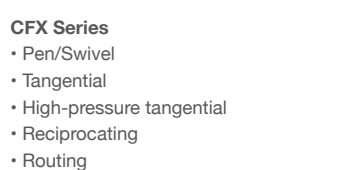

- Signage
- POP displays
- Packaging prototypes

Mimaki

CF2 Series

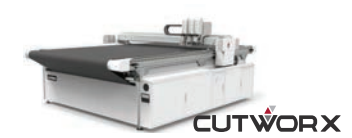

- 2 cutting heads
- Cut materials >25mm

Mimaki

CFX Series

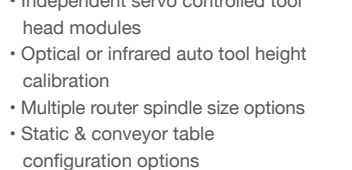

- Pen/Swivel
- Tangential
- High-pressure tangential
- Reciprocating
- Routing

CUTWORX

Apex Series

- Interchangeable cutting head positions
- Independent servo controlled tool head modules
- Optical or infrared auto tool height calibration
- Multiple router spindle size options
- Static & conveyor table configuration options

Summa

F Series

- Split the working area into a cut-only & an operator zone
- Use the front & rear zones alternately
- Tool detection & automatic parameter presets
- Ensure the highest accuracy thanks to the automatic positioning of tools
- Job handling has never been easier with action presets & the material manager
- Get it done quickly—cuts at 39.4” per second

KONGSBERG

Entro Series

- A robust, user-friendly systems that deliver reliable performance at an entry-level price
- Full-speed capabilities, intuitive software, versatile systems
- **Entro 20 : Cutting & Creasing**
Small batch production & sample-making using lighter rigid materials
- **Entro 24 : Cutting, Creasing, Milling**
Full-speed production of smaller volumes of signage, graphics & packaging

KONGSBERG

X Series

- Kongsberg X cutting table evolves with you & offers versatility for a wide range of 2D & 3D cutting applications including packaging, signs or displays
- For sample making, short run production & other packaging-related tasks
- For signage, packaging or display production
- Cutting of flexo plates & patches

KONGSBERG

X Edge Series

- X Edge can be equipped for any application & can be easily upgraded in both speed & acceleration
- Speeds of 30 m/min with acceleration of 0.3G
- For sample making, short run production & other packaging-related tasks
- For signage, packaging or display production
- Cutting of flexo plates & patches

FLATBED CUTTER

ATTRIBUTES :

- High speed digital cutting solutions
- All production levels available
- All footprint sizes available

APPLICATIONS :

- Signage
- POP displays
- Packaging prototypes

KONGSBERG

Ultimate Series

- The world's most productive digital cutting table for corrugated & display
- Up to 2.7G acceleration
- Peak cutting speeds over 165 m/min
- Reduction in noise
- Traverse structural design guarantees unmatched productivity and precision
- SmartZone™, a proximity-driven dual-zone safety system that monitors the table's surroundings
- Intelligent sequencing boosts both productivity & energy savings
- Modular platform

KONGSBERG

C Series

- Multifunction super-wide digital cutting table for soft & rigid signage
- Can handle a wide range of materials, from foam and plastics, flexible materials, folding carton & all kinds of corrugated
- Fast & accurate
- High powered 3kW milling
- Add automation

KONGSBERG

C Edge Series

- Enter the world of 24/7 digital finishing with an upgradeable version of the robust Kongsberg C platform
- Ideal for sign & corrugated production
- C Edge evolves with you & can be easily upgraded in both speed & acceleration
